The addresses delivered and papers read are all in this book besides over fifty cuts of delegates and others, which makes it a valuable souvenir of the convention.

A WONDERFUL INSTITUTION. The publishers of Mr. Washington's Autobiography conduct one of the most remarkable institutions in existence. They co-operate with thousands of individuals in this and other countries, who market the products of this firm. Each individual is in business for himself or herself, as much so as the parent establishment. The most cordial co-operation exists between the two and success has been multiplied thousands of times as a result of this method. It is a well known fact that the publishing business furnishes employment for the greatest number of competent individuals who earn unlimited incomes.
